

Press Release

Kabra Extrusiontechnik to explore possibilities to engage in the business of Energy Storage Systems

The Company is exploring possibilities to engage in the business of green Energy Storage Systems and green electric vehicle batteries. The Company has actively initiated the process of selection of new products, along with evaluation of different technologies, technical inputs, equipment sourcing, innovative business model, project viability, planning for co-operation, etc. to widen its product portfolio and global presence to set footprint in this emerging space. The knowledge and long experience possessed by the Company in engineering and manufacturing will be an additional advantage to the Company.
